

# **It's time to fight for your religious freedom Christians Should Fear Obamacare!**

**Americans grow up turning to God** when buried in debt, seriously ill, or dodging enemy fire. WWII vets tell of finding no atheists in their fox holes. Vietnam vets tell of praying before, during, and after every operation. Therefore, it was sad to watch Democrats vote not once but three times to exclude God from their national platform and then read their [“F\\*\\*K Cardinal Dolan” tweets](#) after [he prayed for the protection of the unborn](#).

**We call confirmed Christians “Soldiers of Christ.”** Is it not time for those advocating “Obama then – Obama now” to join our fight for religious freedom. Unless we repeal Obamacare, Christian employers are going to be forced to provide abortion coverage for employees or pay a per-employee fine. That means Catholics will be paying a fine for every employee working in their hospitals, nursing facilities, food pantries, shelters, etc. No matter whom you voted for in 2008, it's imperative Christians vote for Mitt Romney in 2012.

**In Vietnam, converting Military Payment Certificates (MPC) to Greenbacks (U.S. Currency) while in country was a court martial offense** because it could lead to greenbacks being sold to the Vietcong who'd then purchase U.S. weapons and ammunition. Obama's operation “Fast and Furious” would have been considered an act of treason.

**We lost 58,655 Soldiers, 1244 in Wisconsin, five from my Door County during the Vietnam War because LBJ lied to the media, ran the war from Washington, and allowed liberals like Jane Fonda to embolden the North Vietnamese.** Obama telling the Russians to wait until he's reelected before discussing our nuclear arsenal, his failure to secure our embassies while telegraphing our withdrawal from combat, and his endless apologies to our enemies is far worse than what LBJ did to our troops during the Vietnam War. Speaking as a Past VFW Commander and current Chaplain, “if we don't get Obama out of office on November 6 our VA' caseload for PTSD, depression and suicide will dwarf the aftermath of Vietnam.

**Sports and businessmen best beware if Obama gets reelected.** His comments during the second debate should have all gun owners running for cover. There is little wonder why the NRA has printed millions of “Defend Freedom – Defeat Obama” yard signs.

**Corporate America and its employees are praying Romney gets elected. Why?** Obama's economic policies have driven us so deep in debt to Communist China companies now must relinquish corporate secrets and intellectual property to gain even a temporary foothold in China's markets. **Americans are born free and independent.** We don't need government in our lives or welfare in our pockets. We only need men of faith and proven business skills in the White House. In Wisconsin, if we want to be energy independent, keep our economy growing, and safeguard our right to bear arms we'd better also vote for Tommy Thompson, Reed Ribble, and Gary Bies.

**In my opinion, "voting for Obama a second time would be like asking the Titanic to take a second run at the same iceberg!"**
