Forensic Voter-fraud audit “Mission statement” and “Operational Protocols”

We will conduct an advanced “Forensic Voter-fraud Audit” county-by-county in Wisconsin, to ensure all voices have been heard and all votes cast were counted.

We will make sure all operations will be regularly “benchmarked” to ensure all operational protocols are being followed, all targeted dates are met, all evidence has been secured, all documents have been backed-up and all “chains-of-custody” standards have been maintained.

We will use the following link to make sure we’re all well informed: www.myrmlc.com

We will use the following link to access the latest voter-fraud-audit reports to the public:
